FloodProtect™

FLEXIBLE SUPPLY LINES
WITH AUTOMATIC SHUTOFF TECHNOLOGY

- Braided steel water supply hoses with new FloodProtect™ technology
- Protects against water damage from burst hoses or broken fittings by sensing and stopping excess water flow
- Auto-shutoff is activated when flow reaches a pre-determined threshold optimized for the appliance – see table below
- Small drips will not trigger the auto-shutoff
- No batteries or electricity required
- Simple to reset – just turn off the water supply, wait 20 seconds, and turn it back on
- Available for toilets, faucets, dishwashers, washing machines, and icemakers
- Do not over-tighten, expose to household chemicals or corrosive materials
- For use only in exposed locations with household potable water
- Inspect regularly for damage or corrosion
- For temperature up to 150°F and pressure up to 125 PSI
