

IRRIGATION CLAMP TOOL

Surlok™ Irrigation Clamp Tool

**WATERLINE makes it
Easy to Crimp fast and Secure
Polyethylene (PE) pipe connections!**

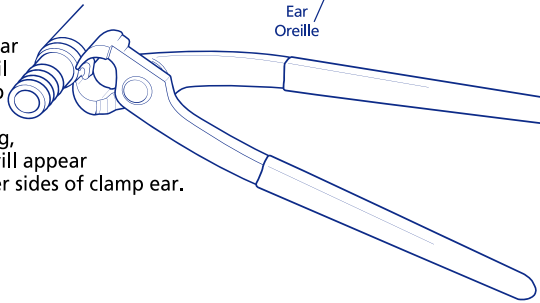

You will find these clamps anywhere you connect poly pipe. Surlok Pinch Clamps are excellent for use on irrigation and water supply systems, for beverage supply lines, car wash supply line and for securing bundles of cable.

INSTALLATION

- 1 Slip clamp over tubing, then slide tubing onto fitting. Secure pinch clamp onto fitting barbs.

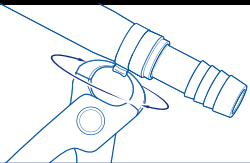

- 2 Close clamp ear with tool until sides of clamp ear meet. After crimping, a small gap will appear between inner sides of clamp ear.

REMOVAL / RETRAIT

To remove a clamp, place the tool jaws across the ear, twist and cut through it.

NOTE: Crimping must be executed with appropriate tool, improper crimping will result in crimp failure.
